Future Outlook

Overview – Significant future legal matters will continue to need consideration with the issues related to COVID-19, civil protest, police reform, equity and inclusion, the Virginia Values Act, collective bargaining, civilian police oversight, both sovereign and qualified immunity, and other Board priorities. Increases in workload due to these matters will require serious discussion about additional staff members at each level of the Office – attorneys, paralegals, and administrative support staffing. The County Attorney’s Office assisted in the development and implementation of the numerous pandemic policies, including employment issues, public safety issues, public meeting issues, and programs funded by the CARES Act. As those new policies continue to evolve, there will be areas such as policy matters, retention, and possible liability or discipline issues that will take staff time to address.

Significant future non-pandemic legal issues relate to transportation projects, land use matters, collective bargaining, telecommunications/cable franchise negotiations, and technology issues. Significant time and resources will continue to be devoted to Freedom of Information Act (FOIA) requests and subpoenas, as these matters continue to grow in volume and complexity.

Child Protective Services (CPS) and Human Services – Child abuse and neglect cases will continue to be complex and time consuming, requiring at least three full-time attorneys, with increased support staff time. Mental health, HIPAA compliance, co-responder, and Housing issues will continue to grow. COVID-19 has magnified this area of work.

Federal Regulations – Federal regulations and laws will require additional legal resources to support the County, in the area of CARES Act fund assessment and implementation, Internal Revenue Service (IRS) audits, etc.

Property Acquisitions – Property acquisitions and condemnation cases by the County for the construction of public facilities, new roads, and improvements to existing roads throughout the County will continue to increase. These will continue to take significant time and resources, as the Virginia statute and Constitutional amendment on lost profits continue to impact these cases.

Support for the Department of Economic Development – This area of work will continue to increase as prospects and companies look to relocate to the County. These matters are often expected to be a top priority, no matter what other demands are being handled by the Office.

General Overview

A. Redistribution of Internal Service Fund (ISF) Technology Budget – The County annually allocates all information technology (IT) costs to agencies through an ISF, using the approved cost basis for each technology activity. Technology activities include computer support (hardware replacement, software licenses, and helpdesk customer services), IT security, business systems support (public safety communications, financial systems, human services systems, etc.), geographic information system, web services, capital equipment replacement, messaging, cloud storage, network and infrastructure services, telecommunications, and radio. The cost basis is calculated through a formula derived from the Department of Information Technology’s (DoIT) ISF fee schedule.

For FY23, ISF costs have been revised to align and more accurately reflect overall technology activities with current department specific technology services. Costs are adjusted to more accurately reflect agency technology usage, as tracked by DoIT billing systems using the updated methodology. In FY23, the County Attorney technology bill increases by \$179,967. No technology service levels are changed, and there is no impact to the technology services individual agencies currently receive. For additional information on the countywide impact and methodology of redistributing technology charges, please see the Budget Highlights section of this document.
